**Please be aware that all aspects of this service specification outline the requirements for this programme. As such, commissioners and practices should ensure they have read and understood all sections of this document as part of the implementation of this programme.**

**Practices are advised that to ensure they receive payment, particular attention should be paid to the payment and validation terms. Practices will need to ensure they understand and use the designated clinical codes as required to ensure payment.**

**Other formats of this document are available on request. Please send your request to: [england.gpcontracts@nhs.net](mailto:england.gpcontracts@nhs.net)**

### **Equalities and Health Inequalities Statement:**

"Promoting equality and addressing health inequalities are at the heart of NHS England's values. Throughout the development of the policies and processes cited in this document, we have

- Given due regard to the need to eliminate discrimination, harassment and victimisation, to advance equality of opportunity, and to foster good relations between people who share a relevant protected characteristic (as cited under the Equality Act 2010) and those who do not share it;
- Given regard to the need to reduce inequalities between patients in access to, and outcomes from, healthcare services and in securing that services are provided in an integrated way where this might reduce health inequalities."

## 1 Introduction

- 1.1 All GMS practices are expected to provide essential and those additional services they are contracted to provide to all their patients. This enhanced service (ES) specification outlines more specialised services to be provided. The specification of this service is designed to cover the enhanced aspects of clinical care, all of which are beyond the scope of essential services. No part of the specification by commission, omission or implication defines or redefines essential or additional services.
- 1.2 This ES<sup>1</sup> is directed at GP practices<sup>2</sup> delivering vaccination and immunisation services in England.
- 1.3 This ES is agreed between NHS Employers (on behalf of NHS England) and the British Medical Association (BMA) General Practitioners Committee (GPC).

## 2 Background

- 2.1 A temporary meningococcal freshers vaccination programme was introduced in April 2014 following the advice of the Joint Committee on Vaccination and Immunisation (JCVI), to protect students attending university for the first time, who are at increased risk of contracting meningococcal disease because the disease can spread quickly where people live close to each other, e.g. in university halls of residence or shared accommodation.
- 2.2 In February 2015, Public Health England (PHE) presented data to JCVI on the increase in MenW disease in England and Wales since 2009, with the most recent cases increasing in an accelerated manner. JCVI agreed this constituted an outbreak situation and that population level control of MenW was required with urgency, to reduce the risk of further rapid increases in disease across the population. JCVI advised that a programme with a new quadrivalent vaccine to vaccinate all adolescents aged 14-18 years of age

---

<sup>1</sup> Section 7a functions are described as 'reserved functions' which are not covered by the 'enhanced services delegated to CCG' category in the delegation agreement. NHS England remains responsible and accountable for the discharge of all the Section 7a functions. As this vaccination is defined as a Section 7a function, this agreement cannot be changed or varied locally.

<sup>2</sup> Reference to 'GP practice' in this specification refers to a provider of essential primary medical services to a registered list of patients under a GMS, PMS or APMS contract.

against the emerging 'MenW' strain of the disease. The quadrivalent vaccine also provides protection against meningococcal groups A, C and Y.

Vaccination of this cohort is expected to provide herd protection for the wider population.

- 2.3 Those aged 18 years (school year 13) on 31 August 2015 were the first cohort to be vaccinated using the MenACWY quadrivalent vaccine.
- 2.4 The freshers programme applies to patients aged 19-24years (19 years on 31 August 2018 up to 24 years by 31 March 2019). Patients are not eligible for vaccination under this programme when they have attained the age of 25 years (i.e. they remain eligible up to the day before their 25<sup>th</sup> birthday).
- 2.5 The vaccines will be centrally supplied through ImmForm for use for all patients eligible for vaccination under this ES. Further details on the background, dosage, timings and administration of the vaccination can be found in the Green Book<sup>3</sup>.

### 3 Aims

- 3.1 The aim of this ES is to support commissioners in establishing a meningococcal freshers vaccination service with GP practices in order to prevent cases of the disease and deaths in freshers attending university for the first time.

### 4 Process

- 4.1 This ES begins on 1 April 2018 and runs to 31 March 2019.
- 4.2 Commissioners will seek to invite GP practices to participate in this ES before 30 April 2018. Practices who participate in this ES should respond to the commissioner's offer no later than 30 June 2018. The agreement should be recorded in writing with their commissioner.
- 4.3 Payment and activity recording will be managed by the Calculating Quality Reporting Service (CQRS)<sup>4</sup> and participating practices are required to sign-up to CQRS at the same time they accept the offer to participate in the ES – no

<sup>4</sup> Guidance relating to CQRS and GPES will be provided by NHS Digital when services are updated.

later than 30 June 2018<sup>5</sup>.

## 5 Service specification<sup>6</sup>

- 5.1 The requirements for GP practices participating in the ES are outlined within this section.
- 5.2 **Provide MenACWY vaccination** to eligible students on an opportunistic basis or who self-present at the GP practice; unless immunisation is contra-indicated.
- a. Eligible patients are those who:
    - i. are attending university/further education<sup>7</sup> for the first time at the time of vaccination,
    - ii. are aged 19 years on 31 August 2018
    - iii. Patients eligible from August 2015 remain eligible up to the day before their 25<sup>th</sup> birthday),
    - iv. are vaccinated at any time during the period 1 April 2018 to 31 March 2019; The patient must be under the age of 25 years at the time of vaccination.
  - b. Immunisation is contra-indicated where the patient has previously had a confirmed anaphylactic reaction to a previous dose of the vaccine, or to any component of the vaccine.
  - c. There is no requirement for practices to operate active call and recall, but instead offer vaccination to eligible patients when they self-present or opportunistically as they access GP services.
- 5.3 **Take all reasonable steps to ensure that the medical records of patients receiving a MenACWY vaccine are kept up-to-date** with regard to the immunisation status and in particular, include:
- a. any refusal of an offer of immunisation
  - b. where an offer of immunisation was accepted and:

---

<sup>5</sup> Practices will be required to sign-up to CQRS in order for payment to be calculated and processed.

<sup>6</sup> Commissioners and practices should ensure they have read and understood all sections of this document as part of the implementation of this programme and to ensure accurate payment.

<sup>7</sup> UCAS manages applications for 37,000 courses at 370 providers including universities, colleges or conservatoires. A leaflet notifying students applying for relevant courses will be sent to students by UCAS during the application cycle.

- i. details of the consent to the immunisation (including persons that have consented on the patient's behalf and that person's relationship to the patient must also be recorded),
- ii. the batch number, expiry date and title of the vaccine,
- iii. the date of administration,
- iv. where two vaccines are administered in close succession the route of administration and the injection site of each vaccine,
- v. any contra-indication to the vaccination or immunisation,
- vi. any adverse reactions to the vaccination or immunisation<sup>8</sup>.

**5.4 Ensure that all healthcare professionals who are involved in administering the vaccine have:**

- a. referred to the clinical guidance available; and
- b. the necessary experience, skills and training, including training with regard to the recognition and initial treatment of anaphylaxis.

**5.5 Ensure that all vaccine ordering is conducted in line with national guidance**, including adherence to any limits on stocks to be held at any one time. Vaccines will be supplied centrally, ordered from ImmForm as per other centrally supplied vaccines.

**5.6 Ensure that all vaccines are stored in accordance with the manufacturer's instructions** and that all refrigerators in which vaccines are stored have a maximum/minimum thermometer and that the readings are taken and recorded from that thermometer on all working days and that appropriate action is taken when readings are outside the recommended temperature.

**5.7 Services will be accessible, appropriate and sensitive to the needs of all service users.** No eligible patient shall be excluded or experience particular difficulty in accessing and effectively using this ES due to a protected characteristic, as outlined in the Equality Act (2010) – this includes race, gender, disability, sexual orientation, trans status, religion and/or age.

**5.8 Providers will monitor and report activity information via ImmForm on a monthly basis.** The activity information shall include a monthly count of all

---

<sup>8</sup> This should be reported via the yellow card scheme. <https://yellowcard.mhra.gov.uk/>

eligible patients who received a vaccination in the relevant month. This information will be used by NHS England and PHE for monitoring uptake achievement and national reporting.

- 5.9 **Practices who agree to participate in this ES will be required to indicate acceptance on CQRS** to enable CQRS to calculate the monthly payment achievement.
- 5.10 **Practices will be required to input data manually into CQRS** until GPES is available. The clinical codes which must be used to record activity are available in the document “Technical requirements for 2018/19 GMS contract changes”<sup>9</sup>.
- 5.11 **Where the patient has indicated they wish to receive the vaccination but is physically unable to attend the practice** (for example is housebound) the practice must make all reasonable effort to ensure the patient is vaccinated.

## 6 Monitoring

- 6.1 Commissioners will monitor services and calculate payments under this ES using CQRS, wherever possible. GPES will provide information, using the defined clinical codes, on the number of patients on the practices registered list, who are attending university/further education for the first time, are aged from 19 to 24 (who have not attained the age of 25 at the time of vaccination) who are recorded as being vaccinated during the period 1 April 2018 to 31 March 2019.
- 6.2 Practices will be required to manually input data into CQRS, until such time as GPES<sup>10</sup> is available to conduct electronic data collections. For information on how to manually enter data into CQRS, see the NHS Digital website<sup>11</sup>.
- 6.3 When GPES is available, each GPES data collection will capture data for all payment and management information counts and report on activities from the start of the reporting period e.g. 1 April to the end of the relevant reporting month. The reporting month will be the month prior to the month in which the collection is run e.g. if the collection month is May, the reporting month will be

<sup>10</sup> When GPES becomes available it will be communicated via the NHS Digital.

<sup>11</sup> NHS Digital. <https://digital.nhs.uk/article/279/General-Practice-GP-collections>

April.

- 6.4 When collections begin, GPES will provide to CQRS the monthly counts.
- 6.5 The 'Technical Requirements document' contains the payment, management information and cohort counts and the clinical codes which are required for this service. The clinical codes will be used as the basis for the GPES data collection, which will allow CQRS to calculate payment and support the management information collections, when available. Practices should use the relevant clinical codes or re-code if necessary, only those included in this document and the supporting Business Rules (<http://content.digital.nhs.uk/qofesextractspecs>) will be acceptable to allow CQRS to calculate achievement and payment and for commissioners to audit payment and service delivery. Practices will therefore need to ensure that they use the relevant codes from the beginning of this service and re-code patients where necessary.
- 6.6 Supporting Business Rules will be published on the NHS Digital website<sup>12</sup>. Commissioners and practices should refer to these for the most up-to-date information on management information counts, clinical codes.

## 7 Payment and validation

- 7.1 Claims for payments for this programme should be made monthly, after the dose has been administered. Where claims are entered manually, this should be within 12 days of the end of the month when the completing dose was administered. Where there is an automated data collection, there is a five working day period following the month end to allow practices to record the previous month's activity before the collection occurs. Activity recorded after the collection period is closed (five days), will not be collected and recorded on CQRS. Practices must ensure all activity is recorded by the cut-off date to ensure payment.
- 7.2 Payment will be made by the last day of the month following the month in which the practice validates and commissioners approve the payment.
- 7.3 Payments will begin, provided that the GP practice has manually entered and

---

<sup>12</sup> NHS Digital. <http://content.digital.nhs.uk/qofesextractspecs>

declared achievement or GPES<sup>13</sup> has collected the data and the practice has declared such data<sup>14</sup>. The first payment processed will include payment for the same period.

- 7.4 Practices who wish to participate in this ES will be required to sign up to CQRS no later than 30 June 2018.
- 7.5 Payment is available to participating GP practices under this ES as an item of service payment of £10.06 per dose to eligible patients in accordance with the 'Service specification section' and provisions within this ES specification.
- 7.6 GP practices will only be eligible for payment for this ES in circumstances where all of the following requirements have been met:
  - a. The GP practice is contracted to provide vaccine and immunisations as part of additional services.
  - b. All patients in respect of whom payments are being claimed were on the GP practice's registered list at the time the vaccine was administered and all of the following apply:
    - i. The GP practice administered the vaccine to all patients in respect of whom the payment is being claimed.
    - ii. All patients in respect of whom payment is being claimed were within the cohort (as per the service specification section) at the time the vaccine was administered.
    - iii. The GP practice did not receive any payment from any other source or under any other programme in respect of the vaccine (should this be the case, then the commissioners may reclaim any payments as set out in the annex).
    - iv. The GP practice submits the claim within six months<sup>15</sup> of administering the vaccine (commissioners may set aside this requirement if it considers it reasonable to do so).
- 7.7 As the vaccine is centrally supplied, no claim for reimbursement of vaccine costs or personal administration fee apply.
- 7.8 Commissioners will be responsible for post payment verification. This may include auditing claims of practices to ensure that they meet the requirements of this ES.

---

<sup>13</sup> See 'Process' section for information relating to sign-up and automated collection.

<sup>14</sup> Practices are reminded that they are responsible for checking their 'achievement' is accurate before they 'declare' it on CQRS.

<sup>15</sup> In line with the SFE and only applicable if CQRS is not being used.

7.9 Administrative provisions relating to payments under this ES are set out in the Annex.

## **Annex. Administrative provisions relating to payments under the ES for meningococcal freshers vaccination programme**

1. Payments under this ES are to be treated for accounting and superannuation purposes as gross income of the GP practice in the financial year.
2. Claims for payments for this programme should be made monthly, after the final completing dose has been administered. Where claims are entered manually, this should be within 12 days of the end of the month when the completing dose was administered. Where there is an automated data collection, there is a five day period following the month end to allow practices to record the previous month's activity before the collection occurs. Activity recorded after the collection period is closed (five days), will not be collected and recorded on CQRS. Practices must ensure all activity is recorded by the cut-off date to ensure payment.
3. Payment will be made by the last day of the month following the month in which the practice validates and commissioners approve the payment.
4. Payment under this ES, or any part thereof, will be made only if the GP practice satisfies the following conditions:
  - a. the GP practice must make available to commissioner's information under this ES, which the commissioner reasonably requires and the GP practice either has or could be reasonably expected to obtain,
  - b. the GP practice must make any returns reasonably required of it (whether computerised or otherwise) to the payment system or CQRS and do so promptly and fully; and,
  - c. all information supplied pursuant to or in accordance with this paragraph must be accurate and up-to-date.
5. If the GP practice does not satisfy any of the above conditions, commissioners may, in appropriate circumstances, withhold payment of any, or any part of, an amount due under this ES that is otherwise payable.
6. If a commissioner makes a payment to a GP practice under this ES and:
  - a. the contractor was not entitled to receive all or part thereof, whether because it did not meet the entitlement conditions for the payment or because the payment was calculated incorrectly (including where a payment on account overestimates the amount that is to fall due);

- b. the commissioner was entitled to withhold all or part of the payment because of a breach of a condition attached to the payment, but is unable to do so because the money has already been paid; or
- a. the commissioner is entitled to repayment of all or part of the money paid,

Commissioners may recover the money paid by deducting an equivalent amount from any payment payable to the GP practice and where no such deduction can be made, it is a condition of the payments made under this ES that the contractor must pay to the commissioner that equivalent amount.

7. Where the commissioner is entitled under this ES to withhold all or part of a payment because of a breach of a payment condition, and the commissioner does so or recovers the money by deducting an equivalent amount from another payment in accordance with paragraphs 5 and 6 of this annex, it may, where it sees fit to do so, reimburse the contractor the amount withheld or recovered, if the breach is cured.

### **Provisions relating to GP practices that terminate or withdraw from this ES prior to 31 March 2019 (subject to the provisions below for termination attributable to a GP practice split or merger)**

8. Where a GP practice has entered into this ES but its primary medical care contract subsequently terminates or the GP practice withdraws from the ES prior to 31 March 2019, the GP practice is entitled to a payment in respect of its participation if such a payment has not already been made, calculated in accordance with the provisions set out below. Any payment calculated will fall due on the last day of the month following the month during which the GP practice provides the information required.
9. In order to qualify for payment in respect of participation under this ES, the GP practice must provide the commissioner with the information in this ES specification or as agreed with commissioners before payment will be made. This information should be provided in writing, within 28 days following the termination of the contract or the withdrawal from the ES agreement.
10. The payment due to GP practices that terminate or withdraw from the ES

agreement prior to 31 March 2019 will be based on the number of vaccinations given to eligible patients, prior to the termination or withdrawal.

## **Provisions relating to GP practices who merge or split**

11. Where two or more GP practices merge or are formed following a contractual split of a single GP practice and as a result the registered population is combined or divided between new GP practice(s), the new GP practice(s) may enter into a new or varied agreement to provide this ES.
12. The ES agreements of the GP practices that formed following a contractual merger, or the GP practice prior to contractual split, will be treated as having terminated and the entitlement of those GP practice(s) to any payment will be assessed on the basis of the provisions of paragraph 8 of this annex.
13. The entitlement to any payment(s) of the GP practice(s), formed following a contractual merger or split, entering into the new or varied agreement for this ES, will be assessed and any new arrangements that may be agreed in writing with the commissioner, will begin at the time the GP practice(s) starts to provide such arrangements.
14. Where that new or varied agreement is entered into and the arrangements begin within 28 days of the new GP practice(s) being formed, the new arrangements are deemed to have begun on the date of the new GP practice(s) being formed. Payment will be assessed in line with this ES specification as of this date.

## **Provisions relating to non-standard splits and mergers**

15. Where the GP practice participating in the ES is subject to a split or a merger and:
  - a. the application of the provisions set out above in respect of splits or mergers would, in the reasonable opinion of the commissioner, lead to an inequitable result; or,
  - b. the circumstances of the split or merger are such that the provisions set out in this section cannot be applied,commissioners may, in consultation with the GP practice or GP practices concerned, agree to such payments as in the commissioner's opinion are reasonable in all circumstances.
