**Working pattern:**
A full time week is 40 hours (on average), notionally split into 10 sessions of four hours in length and including ‘out of hours’ work to be scheduled across the year. Your working pattern is arranged across a weekly rota cycle.

A week includes, on average (pro rata if LTFT):
- 7 ‘clinical’ sessions: including (but not limited to) booked and emergency surgeries, house visits including travelling, telephone consultations, associated administrative work, appropriate debriefing time with the supervising GP and ‘out of hours’ work; trainees should

have one hour of admin time for each three hours of clinical time, and the booking of appointments will allow for this as well as debriefing to take place within the session.

- 2 ‘structured educational’ sessions: including (but not limited to) release to local structured teaching programme, tutorials, practice educational meetings, educational supervisor meetings, activities relating to workplace based assessment, e-portfolio entries and other engagement with the ARCP process.

- 1 ‘independent educational’ session: for independent study and revision.

Educational and training opportunities will be tailored to address individual learning leads. It may be desirable for additional clinical sessions to be used instead for educational purposes – though you should normally have no fewer educational sessions than outlined above.

When ‘out of hours’ work is undertaken, the equivalent number of hours will need to be deducted from the clinical sessions (as described above) in the same week (or following weeks) as agreed with your practice. The scheduling of ‘out of hours’ work must also remain compliant with the average 40 hour weekly total and ensure a safe working pattern in accordance with Schedule 3 of the TCS. Depending on the nature of the out of hours work, the consequent time off may need to be taken in one block during the same week (perhaps the same day or the next day), or it may be possible to take it in smaller amounts across a number of weeks; this should be agreed with your supervisor. The timing of any time off in lieu will need to be agreed with regard to the need to maintain safe working hours and must be agreed prior to the out of hours work being undertaken.

You are required to undertake 36 hours of such ‘out of hours’ work across the placement; you should schedule this in accordance with availability and with the agreement of your supervisor. You may spread these hours across the year in any safe pattern compliant with the working hours provisions of Schedule 3 of the TCS; however, you should not schedule work across more than six weekends per year (or three weekends in a six month placement), as defined in Schedule 2, paragraph 5 of the TCS. No fewer than 1 and no more than 11 of these hours should fall into the period attracting a night enhancement (broadly, after 9 pm or before 7 am), as set out in Schedule 2, paragraphs 14-16 of the TCS.
