Version history and amendments

Action	Date	Notes
Rebranding	Nov 2023	Profile suite has been transferred onto new template. No changes to wording, scores or levels.
New profiles	June 2003	New profiles released in 2006 are marked with a double Asterisk (**)
Generic profile provisions		Generic profile provisions apply to profiles marked with a single Asterisk (*) GENERIC PROFILES

		<p>The following generic profile note extracted from the Second Edition of the Job Evaluation Handbook explains the position in cases where the minimum score falls below the relevant grade boundary: (See para 5.2 Section 7)</p> <p>The band for jobs covered by this generic profile is band e.g. 4. The minimum total profile score falls below the band 4 grade boundary. This is the result of using a single generic profile to cover a number of jobs of equivalent but not necessarily similar factor demand. It is not anticipated that any job will be assessed at the minimum level of every possible factor range. If this were the case it indicates that the job should instead be matched against a band 3 profile. If this is not successful, the job must be locally evaluated.</p>
